DECEMBER 2024

HELP!

THE "SAFER PATH PROJECT":

Erasmus+

Hello from the SaferPaTH Project Team!
We came together to launch this exciting initiative to help homecare workers!

The project addresses health professionals specialized in people with disabilities' home caring.

The main goal of this proposal is to improve the skills of homecare workers caring for people with disabilities and to achieve their wellbeing in order to offer a more efficient health and home care

We celebrated the first transnational project meeting in Athens, home of our partner Action Synergy, which is in charge of comparative research, the main topic of this meeting.

We discussed together the potential and benefits of involving the project's main stakeholders, the home care workers, to analyse the needs and critical issues they face every day.

THE FIRST TRANSNATIONAL PROJECT MEETING IN ATHENS

Co-funded by
the European Union

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

FOCUS GROUPS

The project partners, with directions finalised in Athens, organised focus groups to gather first-hand information on the situation experienced by professionals caring for people with disabilities at home. Investigating what are the main causes of stress due to work...

>>> THE PARTNERSHIP:

TPM in Sevilla

Project partners will meet again in January in Sevilla, where they will really begin to build the real outcome of the project, which is a digital burn-out toolkit with best practices for improving wellness standards.

It will also be an empowering experience for all involved, paving the way for greater inclusion and positive change.

>>> PROJECT PARTNERS

The partnership consists of 3 partners from 3 EU countries: Italy, Spain and Greece, representing the Mediterranean area of EU.

[@Consorzio Global Med Care](#)

[@Cocemfe Sevilla](#)

[@Action Synergy](#)

The 3 partners address common needs and priorities in the field of disability, and they foster a change that could lead to a new approach to home-care for PWDs and could upskill and enhance their own workers.
